PAGE

Abrus precatorius L.: Purification of proteins from *Abrus precatorius* L. & their biological properties ... 321
Acetoacetate: Effect of acetoacetate on tyrosine metabolism in rat liver 20
Acetohydroxy acid isomereroreductase: Biosynthesis of isoleucine & valine in *Mycobacterium tuberculosis* $H_{37}R_V$: Purification & properties of acetohydroxy acid isomereroreductase 23
Acid mucopolysaccharide: Studies on tissue acid mucopolysaccharides: Part I — Pig intestinal mucosa ... 289
Actinomycin D: Early effects of nicotinamide-2,4-dichlorophenoxy acetic acid & actinomycin D on the synthesis of nicotinamide amidohydrolase in rumex acetosa tumour tissue 118
Effect of ethionine & actinomycin D on renal gluconeogenesis in cortisone treated, growth hormone treated & diabetic rats 194
ADHIKARI H. R.: Effect of protein deficiency on latency of lysosomal enzymes 157
ADIGA P. R.: Cysteine toxicity in *Neurospora crassa*: The mechanism of counteraction by amino acids ... 9
Adrenocortical activity: Changes in rat ascorbic acid status & adrenocortical activity during acute dieldrin toxicity 57
Agrobacterium tumefaciens: Purification & properties of a soluble reduced nicotinamide adenine dinucleotide (NADH) dehydrogenase from *Agrobacterium tumefaciens* 214
Aldolase activity: Decrease in aldolase activity in the livers of Clofenapate-treated rats 87
ALFRED, G.: A study of the inactivation of pepsin by trichloroacetic acid 28
A study of the inactivation of trypsin by trichloroacetic acid 35
Alkaline earth metal ions: Role of alkaline earth metal ions in the activation of thromboplastin system ... 191
ALLAUDEEN, H. S.: Biosynthesis of isoleucine & valine in *Mycobacterium tuberculosis* $H_{37}R_V$: Part III—Purification & properties of acetohydroxy acid isomeroreductase 23
Allium cepa: Cytological effects of sulphanilamide on the root apices of *Allium cepa* 324
Alloxan diabetic rat: Metabolism of glycosaminoglycans in alloxan diabetic rats — Glutamine-fructose-6-phosphate aminotransferase & UDPG dehydrogenase activities of liver 147
Alpha chymotrypsin: Proteolytic action of alpha chymotrypsin on macromolecular substrates in presence of trichloroacetate ion 83
Amino acid: Cysteine toxicity in *Neurospora crassa*: The mechanism of counteraction by amino acids ... 9
Nitrogen metabolism in angiosperm parasites: Bound amino acids 60
Nitrogen metabolism in angiosperm parasites: Free amino acids 58
Amino acid composition: Effect of amino acid composition of dietary proteins on renal gluconeogenesis in semistarved weanling rats 172
Aminotransferase: Induction of rat liver tyrosine aminotransferase by pharmacologically unrelated drugs ... 116
Metabolism of glycosaminoglycans in alloxan diabetic rats — Glutamine-fructose-6-phosphate aminotransferase & UDPG dehydrogenase activities of liver 147
AMRUTAVALLI, E.: Effect of glucosamine on orotic acid induced fatty liver 275
ANAND, S. R.: The cellulase system of buffalo rumen microorganisms — carboxymethyl cellulase: Isolation, assay & kinetics of its action 39
Angiosperm parasite: Nitrogen metabolism in angiosperm parasites: Bound amino acids 60
Nitrogen metabolism in angiosperm parasites: Free amino acids 58
Animal histone: Dissimilarity of plant & animal histones revealed by electrophoretic & immunological studies 50
Anthelmintic action: Anthelmintic action of cyanine-863 97
APPAJI RAO, N. *see* KRISHNAN, N. 150
see RAMANARAYANAN, M. 214
see RAVINDRANATH, S. D. 219
Archibald method: Effect of fructose on citrulline estimation by Archibald method 117
Arginine metabolism: Arginine metabolism in normal & tumour tissues of plants: Part I — A comparative study 195
Ascorbic acid: Protein deficiency & regional chemistry of the brain: Part I — Effects of protein deficiency on regional distribution of protein, glutathione & ascorbic acid in rat brain 295
The influence of dietary casein on ascorbic acid metabolism in guinea-pigs 94
Influence of dietary groundnut protein on growth rate & ascorbic acid metabolism in rats ... 163
Ascorbic acid status: Changes in rat ascorbic acid status & adrenocortical activity during acute dieldrin toxicity 57
Asparagine synthetase: Evidence for *de novo* synthesis of asparagine synthetase in gamma irradiated potatoes 204
L-Asparaginyl-L-lysyl-L-histidyl-L-histidyl-L-arginine: Synthetic substitute enzyme: Part IV — Glycosidase activity of a copolymer of L-phenylalanine & L-glutamic acid & synthesis of poly-L-phenylalanyl poly-L-alanyl, poly-L-valyl & poly-L-valyl-L-alanyl, L-asparaginyl-L-lysyl-L-histidyl-L-histidyl-L-arginine as ribonuclease substitutes 90
AZHAR, S.: Induction of tryptophan oxygenase in *Cicer arietinum* seedlings by indole-3-acetic acid & cyclic 3′,5′-adenosine monophosphate 210

BACHHAWAT B. K. *see* SAXENA, S. 1
T_4 Bacteriophage: Switch in the synthesis of early to late proteins of T_4 bacteriophage ... 266
BALASUBRAMANIAN, A. S.: A comparative study of gangliosides, sialomucopolysaccharides & fibrinogen as substrates for *Vibrio cholerae* sialidase ... 77
BANDYOPADHYAY, ASOK: Some metabolic effects of chloramphenicol in Rhesus monkeys 176
BANERJEE, SACHCHIDANANDA *see* BANDYOPADHYAY, ASOK 176
BANERJEE, S. K. *see* CHATTERJEE, G. C. ... 94, 163
BANERJEE, S. P.: Denaturation of bovine serum gamma globulin by acids 104
BASU, DEBKUMAR: Isolation of a crystalline glycopeptide from human urine 133
BHARGAVA, P. M. *see* THIMMAPPAYYA B. ... 65
BHAT, J. V. *see* RAO, U. RAVI 310
BHATIA, S. C.: Changes in rat ascorbic acid status & adrenocortical activity during acute dieldrin toxicity 57
BHIDE, S. V.: Progressive changes in the enzyme levels of mouse foetal liver 101
Biological potency of methyl retinoate: Metabolism & biological potency of methyl retinoate ... 283
BISWAS, B. B. *see* MANDAL, R. K. 50
Bombyx mori L.: Glycine uptake in integument of silkworm *Bombyx mori* L. 310
BOSE, A. R. *see* GUHA, S. R. 170
Bound amino acids: Nitrogen metabolism in angiosperm parasites: Bound amino acids 60
Bovine serum gamma globulin: Denturation of bovine serum gamma globulin by acids 104
Brain: Monoamine oxidation in different regions of rat & goat brain 170
Protein deficiency & regional chemistry of the brain: Part I — Effects of protein deficiency on regional distribution of protein glutathione & ascorbic acid in rat brain 295

PAGE

Part II — Effects of protein deficiency on regional distribution of enzymes of glutamate metabolism in rat brain 300
Part III — Effects of protein deficiency on *in vitro* oxygen uptake by slices & homogenates of different regions of rat brain 304
Sulphate metabolism in developing rat brain: A study with subcellular fractions .. 1
Bran lipase: Studies on rice bran lipase ... 327
Buffalo rumen microorganisms: The cellulase system of buffalo rumen microorganisms — carboxymethyl cellulase: Isolation, assay & kinetics of its action ... 39

Cadaverine: Determination of lysine by measuring cadaverine formed by enzymatic decarboxylation ... 106
CAMA, H. R. *see* KISHORE, G. S. 283
see KRISHNA MALLIA, A. 51
Carbon dioxide metabolizing enzymes: Glycolytic & carbon dioxide metabolizing enzymes in *Chandlerella hawkingi* 108
Carboxymethyl cellulase: The cellulase system of buffalo rumen microorganisms — carboxymethyl cellulase: Isolation, assay & kinetics of its action ... 39
Casein: The influence of dietary casein on ascorbic acid metabolism in guinea-pigs 94
Cellulase system: The cellulase system of buffalo rumen microorganisms — carboxymethyl cellulase: Isolation, assay & kinetics of its action 39
CHAKRABARTI, C. H. *see* PANDIT, V. I. 54
CHAKRAVARTY, P. K. *see* MATHUR, K. B. ... 90
CHANAN SINGH: A non-chelating property of EDTA & some of its biochemical & biological implications ... 45
Polyionic inhibition of RNase by new compounds 72
Chandlerella hawkingi: Glycolytic & carbon dioxide metabolizing enzymes in *Chandlerella hawkingi* ... 108
CHANDRAMOULI, V.: Phospholipids of mycobacteria: Possible presence of glyceryl ethers 55
CHATTERJEE, G. C.: Influence of dietary groundnut protein on growth rate & ascorbic acid metabolism in rats 163
The influence of dietary casein on ascorbic acid metabolism in guinea-pigs 94
CHATTERJEE, R. K. *see* SRIVASTAVA, V. M. L. ... 97
CHEEMA, P. S.: Transamination of β-N-oxalyl-L-α, β-diaminopropionic acid, the *Lathyrus sativus* neurotoxin, in tissues of the rat 16
Chloramphenicol: Some metabolic effects of chloramphenicol in Rhesus monkeys 176
Cholesterol: Cholesterol induced changes in the lipid composition of rabbit liver organelles ... 167
Cholesterol crystallization curves: A mathematical model for changes in the shape of cholesterol crystallization curves 113
Chromatin: Template activity of liver chromatin in rats following whole-body exposure to X-irradiation 257
Chymotrypsin: Proteolytic action of alpha chymotrypsin on macromolecular substrates in presence of trichloroacetate ion 83
Cicer arietinum seedling: Induction of tryptophan oxygenase in *Cicer arietinum* seedlings by indole-3-acetic acid & cyclic 3′,5′-adenosine monophosphate 210
Citrulline estimation: Effect of fructose on citrulline estimation by Archibald method 117
Clofenapate-treated rat: Decrease in aldolase activity in the livers of Clofenapate-treated rats ... 87
Copolymer of L-phenylalanine & L-glutamic acid: Synthetic substitute enzyme: Part IV — Glycosidase activity of a copolymer of L-phenylalanine & L-glutamic acid & synthesis of poly-L-phenylalanyl, poly-L-alanyl, poly-L-valyl & poly-L-valyl-L-alanyl, L-asparaginyl-L-lysyl-L-histidyl-L-histidyl-L-arginine as ribonuclease substitutes 90
Cortisone treated rat: Effect of ethionine & actinomycin D on renal gluconeogenesis in cortisone treated, growth hormone treated & diabetic rats 194
Cuscuta: Biochemical changes observed in the metabolism of *Petunia* during infection singly & in combination by *Cuscuta* & *Orobanche*: Part I — Starch metabolism 183
Biochemical changes observed in the metabolism of *Petunia* during infection singly & in combination by *Cuscuta* & *Orobanche*: Part II — Nucleic acid metabolism 187
Crystalline glycopeptide: Isolation of a crystalline glycopeptide from human urine 133
Crystallization curves: A mathematical model for changes in the shape of cholesterol crystallization curves 113
Cyanine-863: Anthelmintic action of cyanine-863 ... 97
Cyclic 3′,5′-adenosine monophosphate: Induction of tryptophan oxygenase in *Cicer arietinum* seedlings by indole-3-acetic acid & cyclic 3′,5′-adenosine monophosphate 210
Cysteine toxicity: Cysteine toxicity in *Neurospora crassa*; The mechanism of counteraction by amino acids 9
Cytochrome *c*: Effect of cytochrome *c* on succinate oxidation in rat liver mitochondria 130
Cytological effect: Cytological effects of sulphanilamide on the root apices of *Allium cepa* 324

Damodaran, V. N. *see* BHATIA, S. C. 57
Decarboxylase: Indolepyruvic acid decarboxylase in yeast (*Saccharomyces cerevisiae*) 235
Dehydrogenase: Metabolism of glycosaminoglycans in alloxan diabetic rats — Glutamine fructose-6-phosphate aminotransferase & UDPG dehydrogenase activities of liver 147
DHAR, M. M. *see* MATHUR, K. B. 90
DHOLAKIA, D. M. *see* SRIVASTAVA, S. K. ... 117
Diabetic rat: Effect of ethionine & actinomycin *D* on renal gluconeogenesis in cortisone treated, growth hormone treated & diabetic rats 194
Metabolism of glycosaminoglycans in alloxan diabetic rats — Glutamine-fructose-6-phosphate aminotransferase & UDPG dehydrogenase activities of liver 147
2,4-Dichlorophenoxy acetic acid: Early effects of nicotinamide, 2,4-dichlorophenoxy acetic acid & actinomycin D on the synthesis of nicotinamide amidohydrolase in rumex acetosa tumour tissue ... 118
Dieldrin toxicity: Changes in rat ascorbic acid status & adrenocortical activity during acute dieldrin toxicity 57
Dietary casein: The influence of dietary casein on ascorbic acid metabolism in guinea-pigs ... 94
Dietary groundnut protein: Influence of dietary groundnut protein on growth rate & ascorbic acid metabolism in rats 163
Dietary protein: Effect of amino acid composition of dietary proteins on renal gluconeogenesis in semi-starved weanling rats 172
DIGENDRA VIKRAM SINGH: Biochemical changes observed in the metabolism of *Petunia* during infection singly & in combination by *Cuscuta* & *Orobanche*: Part I — Starch metabolism 183
Biochemical changes observed in the metabolism of *Petunia* during infection singly & in combination by *Cuscuta* & *Orobanche*: Part II — Nucleic acid metabolism 187
Digitonin fragments: Activation & inhibition of respiration in submitochondrial digitonin fragments ... 121
Diisopropyl phosphorofluoridate: Catalytic effect of phosphate & oximes on non-enzymic hydrolysis of diisopropyl phosphorofluoridate 112
Drug: Induction of rat liver tyrosine aminotransferase by pharmacologically unrelated drugs ... 116

EDTA: A non-chelating property of EDTA & some of its biochemical & biological implications ... 45
ELLIOTT, W. B. *see* MALVIYA, A. N. 121
Enzyme: Effect of protein deficiency on latency of lysosomal enzymes 157
Glycolytic & carbon dioxide metabolizing enzymes in *Chandlerella hawkingi* 108

Nucleotidases in plants : Part V — Purification & properties of an enzyme hydrolysing flavin adenine dinucleotide at acid pH value from *Phaseolus radiatus* 219
Progressive changes in the enzyme levels of mouse foetal liver 101
Protein deficiency & regional chemistry of the brain: Part II — Effects of protein deficiency on regional distribution of enzyme of glutamate metabolism in rat brain 300
Studies on nucleotide pyrophosphatases: Purification & properties of an enzyme from livers of fresh water fishes (*Wallago attu*) ... 150
Synthetic substitute enzyme: Part IV — Glycosidase activity of a copolymer of L-phenylalanine & L-gutamic acid & synthesis of poly-L-phenylalanyl, poly-L-alanyl, poly-L-valyl & poly-L-valyl-L-alanyl, L-asparaginyl-L-lysyl-L-histidyl-L-histidyl-L-arginine as ribonuclease substitutes ... 90
Enzymatic decarboxylation: Determination of lysine by measuring cadaverine formed by enzymatic decarboxylation 90
Equine species: A comparative immunochemical study of luteinizing hormone derived from ovine, murine, equine & human species 106
Ethionine: Effect of ethionine & actinomy in D on renal gluconeogenesis in cortisone treated, growth hormone treated & diabetic rats 147

Fatterpaker, P. *see* Katyare, S. S. 314
Fatty acid composition: Developmental changes in the fatty acid composition of soybean seeds ... 62
Fatty liver: Effect of glucosamine on orotic acid induced fatty liver 275
Female reproductive organ: Occurrence of α-glucosidase in female reproductive organs of rat ... 232
Fibrinogen: A comparative study of gangliosides, sialomucopolysaccharides & fibrinogen as substrates for *Vibrio cholerae* sialidase 77
Fish: Studies on nucleotide pyrophosphatases: Purification & properties of an enzyme from livers of fresh water fishes (*Wallago attu*) 150
Flavin adenine dinucleotide: Nucleotidases in plants: Part V — Purification & properties of an enzyme hydrolysing flavin adenine dinucleotide at acid pH value from *Phaseolus radiatus* 219
Follicle stimulating hormone inhibitor: On the mechanism of action of the monkey urinary follicle stimulating hormone inhibitor — Its sialidase activity 141
Free amino acid: Nitrogen metabolism in angiosperm parasites: Free amino acids 58
Fructose: Effect of fructose on citrulline estimation by Archibald method 117
